

Business Transport

Delivering a diverse range of ground transport services

Centaur operates depots in key locations throughout London and the South East of England while partnering with an audited supply base of high-quality third party operators to create a single source, nationwide, passenger transport network. We partner with individuals, SME's and leading corporate businesses to find solutions to their passenger travel needs while helping to achieve their sustainability goals.

We deliver a diverse range of ground transport services ranging from one-off executive coach and minibus hire to fully managed transport solutions for large-scale events. We also form long-term relationships with clients seeking repeat services including intersite shuttles, employee commuter routes, contingency planning & disaster recovery, accessible transport and airport transfers.

How Centaur can help your business

- ▷ Fully managed bespoke transport solutions with 24/7 support
- ▷ Reduce business transport costs
- ▷ Ensure your duty of care to travelling employees and delegates

Our Services

- Corporate bus, coach & minibus hire
- Event travel management
- Employee commuter routes and inter-site shuttles
- Disaster recovery
- Vehicle branding
- Sustainable travel
- European transport

Centaur

Our Services

Corporate bus, coach & minibus hire

Whether you need ground transport for 6 or 6000 people we'll have the right vehicle(s) for you. Our diverse fleet includes vehicles with facilities such as Wi-Fi, charging points, desks, lounges, kitchens and wheel chair lifts. We operate 24/7 throughout London, the United Kingdom and Europe.

Event travel management

Organising transport for an event no matter how large or small can be a daunting task. Using our own vehicles and those of our nationwide network of partner operators we can provide you with the any number of vehicles. With our experience of supplying event transport you can be certain of competitive tariffs, dedicated account management and an industry leading back office team that will ensure your requirements are met.

Employee commuter routes and inter-site shuttles

Our employee shuttle services cut the reliance on car usage and dramatically reduce transportation and infrastructure costs for organisations. A reliable inter-site transport network can boost productivity and encourage growth between your organisation's sites. Effective employee commuter routes can improve staff well being as well as extend your reach helping recruitment and retention. We can analyse your employee data to suggest viable coach/ bus routes, educate employees with marketing material and timetables and establish passenger experience enhancements like bus tracking, e-ticketing and free Wi-Fi.

Furthermore, dedicated branded vehicles can enhance your organisation's brand awareness.

Centaur currently operates over 4,000 inter-site trips a week and has helped organisations revolutionise the links between their sites and communities.

Disaster recovery

In the event of an emergency ensuring you have viable contingency plans with partners you can trust is essential. Centaur works closely with organisations to develop transport plans to safeguard the welfare of their employees moving them to any desired location to ensure business as usual. Our disaster recovery services can also be utilised in the event of air or rail travel disruption and industrial action. We can guarantee 24 hour vehicle availability at a fixed price.

Vehicle branding

In a world where your brand can be moved off a screen with a click of a button you can be sure that branding your own shuttle service or advertising on one of our vehicles has a lasting impact. Get the message right and vehicle advertisements can be photographed and shared the world over creating discussion amongst your potential customers.

Centaur operates a network of own branded vehicles operating daily commuter services in London. Our vehicles are moving billboards and we can offer brands advertising options from a single panel vinyl to a full wrap on one or multiple vehicles.

Sustainable travel

Climate change is the defining issue of our time and every organisation must commit to reducing their impact on the environment. This raises challenges when organising transport and businesses must seek the most sustainable solutions when moving their employees and delegates. We take this obligation seriously and our teams build transport services with environmental considerations front and centre. All of the vehicles we operate meet or exceed current emissions standards and we are proud to be an accredited Carbon Neutral organisation, boasting a net zero footprint through carbon offsetting. Furthermore, we are helping our clients move to greater sustainability by introducing ever increasing numbers of hybrid and electric vehicles into regular services.

European transport

With one of the largest international operators licenses in the UK we regularly provide transport to the continent for businesses, sport teams, tour agencies and independent clients. Our compliance team will ensure that all legislative paperwork and licensing is in place, reviewing every European journey before departure ensuring seamless travel across borders.
